SUMMARY

I am proficient in HTML, CSS, and JavaScript, including ES6 syntax. I have also worked extensively with React and Redux for building dynamic and scalable web applications. Additionally, I have knowledge of jQuery and Tailwind CSS to enhance the functionality and design of websites. My skills include creating responsive and user-friendly interfaces while ensuring cross-browser compatibility. I am capable of collaborating with designers and back-end developers to deliver high-quality products that meet client requirements. With a strong foundation in front-end development technologies, I am committed to staying updated with the latest trends and best practices in the field.
